

Welcome

Mrs. Evans and Mr. Hodges would like to welcome you to our Upper Elementary Fifth and Sixth Grade Class. We will be learning many new and exciting things this year. Our job is to teach you new and exciting things, while we continue to build on the things you already know. Your job is to learn the information, study, follow directions, and take responsibility in your own learning. If you do these things, you will be successful in our classes and in reaching your goals. Learning is most important in our classrooms. We will help you do the best that you can, if you are doing your job.

Mrs. Evans will be your Math and Science teacher, and Mr. Hodges will be your Social Studies and English Language Arts teacher. You will find out more information about your homeroom class, class schedule, and planned field studies for the year. We would love to set up a home visit were we could come out and meet with you to get to know you better outside of the classroom. We would enjoy learning about your personal hobbies and interest. We are scheduling visits during 8/9/16-8/15/16. We are also trying to be greener and also communicate in a variety of ways, so we need an email address to update you on our activities. We look forward to meeting new and returning faces during our summer home visits and open house.
